TOUSEEF UR **REHMAN**

OBJECTIVE

Motivated and enthusiastic Computer Science student at HITEC University seeking a challenging internship to apply academic knowledge in real-world projects. Passionate about software development, machine learning, and building innovative solutions.

EDUCATION

Bachelor of Science in Computer Science HITEC University, Taxila Registration No: 22-CS-051 Expected Graduation: 2026

CGPA: 3.25

ACADEMIC PROJECTS

Sentimental Analysis Web App

- -Built using Flask and NLTK to analyze user sentiment
- -Deployed on Render; handled NLTK data dependencies manually
- -Technologies: Python, Flask, NLTK

User Authentication System (Flask Web App)

- -Built a secure user authentication web app using Flask, HTML/CSS, and SQLite
- -Features included user registration, login, logout, and password hashing (using werkzeug.security)
- -Applied form validation and session management; structured backend using Flask routes and templates

Fake News Detection using ANN

- -Built a classification system using Artificial Neural Networks (ANN) to detect fake news
- -Preprocessed dataset (title + text), used word embeddings and trained a custom feedforward neural network
- -Evaluated model using accuracy, precision, and recall.

CNN using Keras for image classification (Course Project)

- -Implemented a CNN for image classification using Keras Functional API
- -Fine-tuned using pre-trained models (VGG16 and ResNet50)

Stock Movement Prediction (GRU vs LSTM)

-Developed a comparative deep learning system using GRU and LSTM to predict stock trends

- -Implemented using Keras with TensorFlow backend; trained on historical stock price data
- -Visualized trends and accuracy metrics to determine best performing architecture

- **Languages:** C++, Python,
- Tools & Platforms: GitHub, VS Code, Anaconda, Render, Jupyter Notebooks, Pycharm, Google Colab
- **AI/ML Libraries:** NLTK, scikit-learn, Pandas, NumPy, Pytourch, Tensorflow
- **Web Technologies:** HTML, CSS, Javascript(basics), Flask
- **Databases**: MySQL, SQLite

- Crypto mining enthusiast; assist peers in getting started with airdrops
- Member, HITEC Programming Club
- Volunteered in University Tech Fest 2024

- Python Crash Course Udemy
- Flask Web Development Udemy
